

## Best Thesis of the Year Award 2021

The Swedish Society of Gene and Cell Therapy is awarding “Best Thesis of the Year 2021 in the Field of Cell and Gene Therapy”. The winner will be invited to an award ceremony at the annual general assembly meeting June 2, 2022, in which the winner presents the thesis. The presentation will be available online (live) for distant members.

### Eligibility Criteria:

- The thesis must be defended during 2021.
- The main topic of the thesis must be within the field of cell and gene therapy or a topic that will greatly influence the field of cell and gene therapy. The work can include discovery, preclinical evaluation, or clinical research.
- The thesis must have been defended at a Swedish university.

### Deadline:

Nominate an outstanding thesis no later than January 31, 2022. You can nominate your own thesis as well as others.

### Nominee submission:

Send the thesis in electronic format to Pontus Blomberg (sfgctinfo@gmail.com). Subject title: “SSGCT thesis of the year 2021 nomination”.

### Election process:

An award committee appointed by the SSGCT board will elect an outstanding thesis and award the respondent “Best Thesis of the Year 2021 in the Field of Gene and Cell Therapy”. The winner will be announced Friday May 6 at the SSGCT website ([www.ssgct.org](http://www.ssgct.org)).
